

Client-side Web Installation - Desktop Instructions for Secure CRT

1. Start your Internet browser
2. Go to www.vandyke.com
3. Click on the [Previous Releases] (the 2nd icon at the bottom of the webpage)
4. Click on the [Download] option (SecureCRT4.1.11, date May 5, 2005)
5. Click on “Download now (https)”
6. Check/mark the box next to the statement of “I acknowledge affirmatively that I understand.....”, and then fill in the information on the “SECURE FORM”.
7. Click on the “I declare the above is true” [button]
8. File download will begin. Save “scr4111.exe” to disk, then Click [OK] (users must specify the destination folder to Save in > ex. C:\Program Files)
9. When “Download Complete” appears, Click [Open Folder]
10. Double Click on the scr4111.exe name and then Click “Run” then program installation will begin. (Note: the program installer checks on the program size installed on your hard drive and display a “file size expected” error message if the downloaded program is corrupted. You must delete the scr4111.exe program and redo the download process from the beginning if this occurs.)

Install Wizard Steps:

- “Select Directory” – use default Click [Next]
 - “Select Profile Options” – use defaults Click [Next]
 - “Choose Protocol” – use defaults Click [Next]
 - “Command Line Tools” – use defaults Click [Next]
