

Association Membership with State Fund

Why Should Association Members Choose State Fund?

State Fund established its first group insurance program in 1921. Since then, we have partnered with over 200 associations to provide quality service and cost-savings to association members. State Fund offers a group insurance program that covers nearly every industry in California.

The staff at State Fund are among the most experienced and professional individuals in the California insurance industry—many have more than 15 years in workers' compensation. They are a dedicated and skilled team that is committed to delivering a wide range of services and programs at the lowest possible cost.

Through this highly qualified staff, State Fund offers:

- **Special group pricing** that includes 6 percent group premium discounts on top of other State Fund savings such as claims-free credit and merit-rating discounts to qualified policyholders.
- **Free safety services and materials.** Safety services such as ergonomics and industrial-hygiene services that can cost over \$250 per hour and safety materials such as posters that can cost over \$20 each are available at no cost.
- **Nearly a century of expertise and experience.** Since 1914, State Fund has served as a not-for-profit and self-supporting insurance carrier committed to providing fair premiums and long-term stability to all employers seeking workers' compensation insurance.
- **An extensive claims function** that is comprised of our Return-To-Work program, Medical Provider Network, and in-house fraud investigation unit that are collectively designed to provide superior treatment and promote injury rehabilitation while keeping workers' compensation cost down.

No matter the size of your operation or your years in business, State Fund has quality services and programs to fit your workers' compensation needs.

For more information, please contact your local State Fund regional office or visit our Web site at www.scif.com.
