DISTRICT OFFICE DIRECTORY 8

INTRODUCTION

This program was developed for you by the Safety & Health Services Department of the State Fund, your partner in loss control. We recognize that your loss control efforts affect the frequency and severity of injuries and illnesses in your work environment. Our experience shows that with informed planning and education, workplace injuries and illnesses can be reduced or eliminated. We are committed to the belief that a safe workplace can increase worker productivity and lower your workers' compensation costs.

The State Compensation Insurance Fund has prepared this catalog of safety materials as a service to its policyholders.

Requests for copies of materials contained in this catalog should be directed to the district office loss control department that handles your workers' compensation policy; please refer to page 8 for your local district office's contact information. Also, you will find an illustration of our Safety Materials Order form on page 7. Please use this form to order all safety materials and future safety materials by making copies of the order form. To ensure prompt delivery, we ask that you submit all requests for safety materials in numerical order.

SUBJECT INDEX		POSTER	PAMPHLET	FORM/ CHECKLIST	SIGN/ STICKERS
SCIF#	TITLE				
AGRICULTURAL SAFETY					
17150	Caution: Do Not Drink This Water — Use For Hand Washing Only				•
